

Session:

Each session will last approx. 20 minutes. Please arrive at least 15 minutes early to get checked in and allow children to become acclimated to the studio environment.

Children:

Children and families of all ages are welcome to participate. Children who are not sitting up yet will be photographed in a beanbag or basket. There is no extra session charge for having multiple children in one session. However, with several children we may recommend purchasing a double session.

Clothing:

Whether you choose Sunday best or casual, we recommend choosing a classic outfit for your child's portrait session. Try not to wear anything that will detract from the face- loud patterns or sequence. Outfits do not have to match however we do recommend that you stay with either a light or dark color scheme. Having one subject in white and the other in black is distracting. We often photograph children and adults barefoot as this gives the portraits a warmer feel and shoes often date a picture.

Props:

We have several props available for your portrait session. Often the use of props is minimal as we don't want to detract from the main subject of the portrait- the children. If you have some thing at home that is sentimental or would like in the portraits feel free to bring it in.
